WORK EXPERIENCE

UseLess

March 2026 - June 2026

Product Designer (Freelance)

- Redesigned the mobile app's visual identity, creating a cohesive interface aligned with the products brand and marketplace positioning.
- Restructured the information architecture and navigation to improve usability, streamline user flows, and make key tasks easier to complete.

Bosch Digital

March 2024 - August 2025

Product Designer (Internship & Part Time)

- Worked within an internal design agency, collaborating with cross-functional teams to design digital solutions across Bosch.
- Co-designed an AI application in a team of two designers to improve the daily workflows of maintenance technicians.
- Defined the product's design language and design system, creating a cohesive and scalable foundation for the platform.
- Conducted field research and usability testing to inform product decisions and validate the solution.
- Validated the product concept through an MVP, securing internal investment for continued development.

Volkswagen Group

October 2023 - December 2023

UI/UX Designer (Part Time)

- Contributed to the development of a large-scale, cross-brand software platform used across Volkswagen Group companies to support industrial engineering processes.

Audi Interaction GmbH

October 2022 - October 2023

UX Researcher (Part Time)

- Conducted customer research across Audi's social media channels to analyse user behaviours, motivations, and engagement patterns.
- Mapped user journey concepts to identify opportunities for transforming social interactions into seamless online sales experiences.
